

Combined B.S./M.S. Program Application Form

The Department of Materials Science and Engineering offers a combined B.S./M.S. program for students currently enrolled at the University of Maryland. Students enrolled in the B.S./M.S. program will earn both a Bachelors of Science and a Masters of Science with thesis in five years.

Students must apply to the University of Maryland Graduate School during the January before their senior year. You will begin the graduate program during the semester or summer following earning the B.S. degree.
